

# CORPORATE PROGRAMS

## Team Building Through Beekeeping

Treasure Valley Bee Rescue is excited to offer corporate green initiatives in a teambuilding environment. Individually designed for your organization, we provide hands-on educational programs about beekeeping. Focusing on creating company Bee Clubs, installing beehives on corporate campuses, conducting honey extraction workshops, and engaging businesses to participate in exciting research projects.

### INSTALL A BEE HIVE ON YOUR COMPANY GROUNDS

The magic of keeping a bee hive is hands on, it takes you away from the stress of daily routines, it's a mental break for employees... it's transformative. Your organization can harvest its very own delicious honey straight from your campus hives. Just imagine the delight in having pure raw honey to cook with, to give to employees or to sell in the company store.

Treasure Valley Bee Rescue will install bee hives at your work place along with providing educational seminars and honey spinning workshops. We custom design programs to meet your business needs!

### ADOPT-A-HIVE PROGRAM

- ½ Hive Sponsorship \$250
- 1 Hive Sponsorship \$500
- 2 Hives Sponsorship \$1,000
- 3 Hives Sponsorship \$1,500
- 5 Hives Sponsorship \$2,500

### SPONSORSHIPS INCLUDES

Complete Langstroth beehive which includes the following hardware configuration:

- One deep give body, two medium hive bodies,
- two medium honey supers and one in-hive feeder.

The first year the bee colony will spend much of their energy pulling comb for their new home. Thus little if any honey will be harvested. The following years will produce between 50 to 150 lbs. of honey per colony depending on the honey flow which is the amount of nectar produced by the local plants and trees.

Employee workshops will teach individuals how to manage and maintain the colony or colonies. Honey extraction workshop will focus on the extraction and bottling of the honey produced by the colony. Ask us about our FREE apprentice program for employees!
